About Us

Our company was founded in 2003 by Haldun Atif Danişman, after a total of 25 years of experience in senior executive positions in the government. Our aim is to provide outcome-oriented, client-based services in the consultancy sector, within the scope of our fields of expertise and through our vast knowledge.

We are moving forward towards our goal with innovative solutions, in light of the technical skills that our founder has brought along and our philosophy of job satisfaction.

Vision

To generate solutions based on each individual customer's project and needs, to find the optimum solution for success, while, simultaneously, working alongside our customers to offer them the best opportunities.

Mission

To build sustainable relations with our customers based on mutual trust and aimed at gaining long-term favour.

Trust in Relations and
Goal-Oriented
Solutions
